Smart and Simple

By Dena

I loved the author's idea of using pictures, sounds and hand motions to help children remember the sounds we use in our language. It is so interesting that after learning just a few sounds and blending them into words, a child has a widened vocabulary of over 50 words!

I especially loved that the author encourages parents to start with sounds, and when the child is ready they will blend the sounds into words. She understands that learning is different for each child, but can be fun and educational at the same time.

One thing I feel could be improved was that some of the hand motions used with the sounds seemed inconsistent with the sound of the letter or with the animal. But overall, it was an easy and fun read!

I would recommend this book to parents with children learning to read and will definitely use this method with my own child!

We were totally shocked!

By Angie Popa Family Realtor

[[VIDEOID:da770eefe0ae302696c727546743f4f5]] Our energetic 2 year old opened the Amazon envelope yesterday and we read / acted out the first three pages. He is a very active little boy and LOVES THE MOTIONS AND SOUNDS for the letters. Well, this morning, I was making breakfast and my 8 year old found the book and started reading it with him. NO KIDDING --- our 2 year old read the 5th page by himself!!! We were totally BLOWN AWAY! I got it on video as I thought it was cute they were reading together. His expression is so funny!! And my 2 year old is so proud of himself!! We were just so surprised that after only reading it a few times our 2 year old (3 in July) picked up on the actions and sounds so fast! Absolutely a 5-star rating!! Would be perfect for families, preschools, grandparents, libraries. So grateful for this book and seeing my children read together and get excited about reading! Love it!!

This book rocks! I bought this for my younger daughter (age 2), and she loves it! She asks to work on her "reading lessons," and picked up the gestures and sounds right away. She made it all the way through the book in just 2 or 3 sittings. The pictures are great, and the sounds and gestures are easy to remember. Very clever!! Even my older daughter (age 4-1/2), who already knows her letters and sounds has applied the ones from this book; I see her referring to them when she's trying to sound out a word sometimes! I love seeing my two girls sit down together with this book and practice the sounds together. Looking forward to using the flash cards (not included with this purchase) as a companion to take the lessons to the next level. Love this book and would definitely recommend!!
