accounting...for accountants

By Nick

This book should be targeted towards those with years of experience in the field of accounting. If you do not have experience or very little experience, avoid this book. The book does not do a good job at explaining the concepts and the problems tend to be "tricky" but not in a challenging sort of way. Take my advice and look elsewhere.

Helpful student with anger problems

By Candice Delgado

Chapter 3 was ripped out but somebody wrote in the answers for the first few chapters so I don't mind.

I bought it for school

By Dayana Perez

Book was in really good condition. I received a great price for it. Now I am currently waiting to sell the book again because I do not need it anymore.
