This series was amazing! The story picks up where book 2 left off with Colin And Ben still struggling with the pain of their son being taken from them. They have outside help and I really liked how all the wolves came together to help Ben and Colin.

A lot happen in so few pages but this installment answered any lingering questions. Happy endings all around and I was happy yet not surprised by what happened with the Waters family.

This was a great series and I look forward to reading more by this author!

I received a free copy for an honest review.

Good Shifter Series

By Daniel Bowen

Avenging The Omega is the third book in this series. The first two are well written and interesting and this one is, too. The series focuses on Colin and Ben, their relationship, and how to escape from the military. Of course there's a lot more going on but I'm not giving away the story. Colin and Ben overcome more obstacles

in this story and start their family life.

SPOILERS:

I would have liked one little glimpse of Miranda rejoining her husband. What will the doctors do now that the program is under investigation and their 'boss' is taken away? Will they seek refuge with the wolf packs? Where will Colin and Ben settle?

Will Colin And Ben find more wolves on their own . . . And if so, how will they go about it? Obviously there are wolves in the human population and the wrong people are discovering them. Something's got to give!

I would have liked a bit more follow up on Black and if he was taken care of. Or if he was freed. His capture wasn't enough for me. He needed to go down . . . hard.

Other than those I enjoyed the three short stories. The characters were engaging and well defined. Despite the page length there was character growth from both Colin and Ben as they suffered loss and joy. Peanut was just a bonus and oh so cute. I hope we hear more about this couple as the series continues. Maybe they'll be role models for other alpha and omega pairs as the world doesn't seem to know much about them. - Dan's Wife

EDIT: I'd be curious to see how Ben's pack accepted Colin. These are military trained wolves and have this hard core vibe. How will they transition to civilian life. Will they get mates, too? Not omegas but mates?

Great ending!

By CloudyVisions

I just loved this three part trilogy! I think it's my favorite alpha/omega/mpreg...you know, that type of story, that I have read. There is action, romance, hotness, and it is more complex than other stories of a similar vein here on Amazon. I can't wait for the next series with Sawyer to start up (hopefully soon!!)

Keep up the awesome work and I look forward to more!
