BECOMING (THE HANDBOOK SERIES 3) BY GEORGE GREEN PDF

The messages contained in this, the third book, are offered for the continued realization of who and what each human being truly is. The consciousness changing information each volume contains brings forth the understanding that humanity on this planet is, in reality, a whole and holy awareness. From the global myriad of belief systems arises a single picture that represents a composite awareness. This totality of thought creates the reality of the human experience, a great deal of effort is now focused with the intent of influencing how the individual and the total global awareness perceive the human experience. The mind discerns what it understands is its surrounding reality but the feelings determine its believability. Confusion masks the ability to choose between what appears to be true and what the feelings believe to be true. Beneath all the rhetoric that is focused on the conscious and subconscious levels within the current deluge of information in all its various forms is the human desire for the freedom to choose what is for the highest and best good of each individual and the planetary whole. Mankind stands at the threshold, the decision point of whether to accept what it is being told is for its highest and best good or to instead shrug off the programmed suggestions and choose for itself a future that is in total contrast. At the heart of the matter is the opportunity to choose cooperation rather than competition, brotherly love and assistance rather than hate and violence. It is time to observe, objectively and logically, the world situation that has resulted from competition and experiencing the premise of survival of the fittest. This perspective separates humans one from another. Individuals making the choice to pursue a new course of thought will lead to different interaction with each other and will in time create a new paradigm of human experience for the planetary whole. It is time to begin.

Thought Provoking & Inspiring Insights!

By Jed Shlackman

Becoming concludes the trilogy of books containing messages from an anonymous enlightened source,

published by George Green (USAF, Retired). The "Handbook For The New Paradigm" trilogy, including the books Embracing the Rainbow (pt.2) and Becoming (pt.3) are an excellent overview of the current state of planetary affairs and the process of chaos and transformation that is materializing. These books impart a set of basic spiritual principles that explain how our reality manifests and how we can work within this framework to transcend the current paradigms and agendas playing out on Earth. This series is a true gem, with much wisdom and loving insights offered to those spiraling out of the current polarity games on Earth. I will add that these materials include both spiritual wisdom and an overview of the dark polarity history and agendas of manipulation on planet Earth. Some other writers, such as David Icke, William Bramley, & Zechariah Sitchin go into details about the history of alien interventions, including the unsettling details about reptilians and the elites offered by Icke. The Handbook for The New Paradigm trilogy alludes to these factors in a non-detailed process-oriented way, making them easier to digest and process in a spiritual framework. However, if you want more tangible confirmation of these issues you may wish to consult these other authors.

Who you are and why you are here.

3rd book of the Handbook series. Continuation of your expansion in growth and happiness, and purpose. It will unlock the doors and free opportunity for you and all around you. I find all 3 handbooks read with the intent of self-empowerment will bring you closer to your guides "out there". The more you read it with that empowering intent, the more "they" can help you. Some excerpts from the 1st book are at soisness.org.

My opinion after viewing some interviews of George Green is that they used a type of "voice to skull"* technology rather than a "channeling". George would hear a phone ringing and looking around for the phone, then remember, "Oh yeah, they're calling me." And then at the computer they'd tell him what to write and he'd type it in the computer.

I believe the authors of the Handbook are all of us, including our galactic brothers and sisters. It is a guidebook for life. I am very grateful for the gift of the Handbook for the New Paradigm.

*As a side note secret governments (alphabet soup agencies) have had and used and are using "voice to skull" technology since over 40 years, experimenting on unsuspecting "citizens", hence the "tin foil hats". They were not crazy. Government agencies have and continue to confiscate inventions in the name of "National Security" and then use them against the people. I call them "agents of chaos" because they seem intent on destroying lives and relationships. However the nefarious ones seem oblivious to the fact that the relationship(s) you gain with those who wrote these 3 books is untouchable. May the force be with you.

This book is a big fat, "where did I come from, why am I here...oh that's why" type of book. Strange things tend to happen to those in possession of this book, myself included. Wonderful, mysterious beautiful awakening events began to take place after I got my hands on this. If you have an open mind, prepare for it to be blasted open. If you don't....re-read previous sentence. And if you don't get the gist of this book, re-read the entire book again. This is my 3rd copy.
