About the Author

Tammy Enz became a civil engineer because of her awe of the massive steel bridges that spanned the Mississippi River. She just had to figure out how they worked. Today, she still likes tinkering and figuring out how things work. When she isn't tinkering, she fixes up old houses and conducts experiments in her garden and kitchen. Most of all, she loves reading books about anything and everything and asking 'why?'

Well written.

By dycn1

Very colorful & well written. I have the Kindle version and was able to mirror it on my classroom Mac so that the students could see it. Although we have not tried to construct the inventions. It is evident that we could have constructed them as they were step by step and very detailed. Pictures were great & colorful.
