Early Michael Crichton as he learned the ropes

By Mike Prevet

Thank goodness for Hard Case Crime for getting these early Michael Crichton books back in print. The John Lange series of books have varying degrees of success but all of them are fascinating and entertaining. Here in Drug Of Choice you can see Crichton trying out concepts he'd explore in more detail in later novels and movies. Here, a fabulous resort promises the ultimate fabulous getaway, but then things go wrong...sound like Jurassic Park or Westworld? How about the manipulation of media using advanced science...sound like Crichton's film Looker ? Yep. There's even an odd similarity to Coma... a film MC wrote and directed but was based on Robin Cook's novel ( which came after Drug Of Choice... maybe Cook read this one too ? )

It is an early novel before MC became a blockbuster machine, so, his story telling skills are in development here... the medical mystery that kicks the story off is fascinating, but the climax of the story veers into some

shaky ground, ending with one of Crichton's patented notes of ambiguity. But overall the book is a fun breezy read and a must have for fans of Crichton. Not as solid or assured as his later household name books, but an entertaining tale that may be more interesting for seeing Crichton trying out concepts he'd later perfect...

Okay bordering on good

By Ryan D. Crompton

This book is typical of Crichton's early work.

Unlike the contemporary "A Case of Need" or the later "Jurassic Park," Crichton steers clear of any kind of technical detail (whether medical, scientific, or otherwise). That makes for a relatively short but engaging book. I was never bored while reading this, but only spent something like 2-3 hours to make it through the entire story. Realistically, it could almost be classed as a short story rather than a novel.

Not much to add, I suppose. The Amazon synopsis covers the plot fairly well.

Dopey (But Readable) Hot Mess

By Tim Field

This is the fourth of the Hard Case Crime John Lange/Michael Crichton reissues that I've read and I'm amazed at how the quality and tone of each book wildly varies. Drug of Choice is a late 60's culture themed conspiracy thriller. As other reviewers have noted, the book presages themes in future Crichton novels and movies (Westworld, Jurassic Park, Terminal Man). Many ideas and concepts about consumerism, mind control and America's drug dependency are floated here, but the execution is clumsy and cartoonish. But, Crichton being Crichton, the reading is breezy and the pages turn easily. For Crichton completists only.
