Simply purchase and download the soft file of this publication Ettore Sottsass By Philippe Thome

ETTORE SOTTASS BY PHILIPPE THOME PDF

"

Take a glimpse inside the archive of the founder of the Memphis Group and designer of the Olivetti Valentine typewriter in Ettore Sottsass, a lavishly illustrated monograph chronicling the life and works of the unparalleled Italian designer and architect.

A gorgeous object in itself, the unique design of the book allows it to either be read cover-to-cover as a narrative history, or by discipline, picking up the relative thread under each period, with multi-colored tabs to distinguish each sub-chapter. Packed with 800 beautiful images taken from the extensive Sottsass archives – many of which have never been published before – and including drawings and sketches from the designer's countless sketchbooks, the book also includes four short essays from experts in their fields, including Deyan Sudjic, director of London's Design Museum.

Wonderful

By Buffy

The book's promotional blurb says to "take a glimpse" at the work of Sottsass but this is so much more than a glimpse. This is seemingly the entire history of Sottsass in pictures and illustrations including photographs, sketches, architectural renderings, furniture designs, objects, and design. Often with several images on a page it's Sottsass overload. Every period of his career is covered with nothing left behind. There are full color illustrations throughout in a solid hardcover design. There are tabs dividing each major section to make it easy to jump to your favorite Sottsass period. Highly recommended.

Oh Phaidon :(

By controlyorchorse

This is a very unfriendly and poorly designed book. If you had the notion of getting cozy and browsing the book, you can throw that idea out the window. There is an additional flap to the book that is like a giant hang nail and prevents any real intimacy with the publication. That aside, the content is overly designed and fragmented, a real insult to the continuity of Sottsass's life's work. Imagine you were watching one of your favorite shows or movies of all time and every ten seconds a commercial interrupted your viewing, that's

essentially how this book is laid out. This book is a real disappointment and I'm not sure why I haven't returned it.

Sottsass the Maestro

By patrick sito

A stunning compilation of the work by one of the most original and prolific designers of the 20th century. The monograph is beautifully composed and crafted by Phaidon. A must-own for design aficionados!
