anonymous review

By David Chipres

This book is one part of a series. It is about two brothers (Joe and Frank Hardy) who solve mysteries. In this book they are on a movie set in the mountains as extras. They also help the animal handlers (Lloyd and Gene) who are responsible for taking care of Omar the mountain lion, who is in the movie.

The movie is about Jumper Hermit, a local criminal, who was thought to be killed in an airplane accident. During the filming, someone tries to stop the movie from being made. The stunts that are planned are sabotaged.(...)

My favorite part of the book was all the mysterious happenings such as the sightings of Big Foot and ghosts. It was my favorite because it makes you keep guessing about what is going on and what is happening. The way it was written makes me think that those kinds of things were real.

I highly recommend this book to people who like to figure out things by themselves. Anyone who likes mysteries would like this book, also. I enjoyed the book because of all the mysteries in it.
