HELD CAPTIVE BY THE CAVEMEN BY SHOSHANNA EVERS

PDF

"Hold on to your seats and take the wild ride of eroticism with four very studly cavemen and one very willing woman."

~The Jeep Diva Reviews

Ellie's been pushed back in time by her vengeful ex-lover. Now a tribe of frighteningly large, muscular, and very sexy cavemen are holding her captive. And they *all* want a turn.

Warning: This short novella contains dubious consent, forced seduction, the threat of real violence, some m/m action, and a four-cavemen-against-one-modern-woman gangbang—not rape. This is not a romance, it's erotica. Just to be clear...happy reading.

Held Captive by the Cavemen

By The Jeep Diva

Held Captive by the Cavemen is a titillating experience, not for the faint of heart and should not be passed over for fans of erotica. Ms. Evers takes the reader on a wild ride of wham-bam sex as Ellie Fleur is transported 30,000 years into the past and lands in the midst of four very dominant cavemen. Ellie soon learns that all her fantasies, and some not, will come true.

Each man delivers orgasm after orgasm as they take her to the point of no return and beyond. All I can say is Hot Dam! as I read the short story and tried to keep up. The roller coaster of orgasms were steamy, animalistic and stimulating. Ms. Evers is very descriptive in her writing, left me short of breathe, and desiring more. You will definitely need relief after reading Held Captive by the Cavemen.

Shoshanna Evers always delivers in her stories as this tale is pages of explicit sex. If you are expecting wine and roses this is not the story for you, but if you desire hard kink, hold on to your seats and take the wild ride of eroticism with four very studly cavemen and one very willing woman.

Hot Quick Read!

By Jade Onyx

Shoshanna has a wonderful way of packing a lot of story in a quick read that leaves me satisfied. This book is yet another one that demonstrates such talent. I don't feel bogged down by details, and she gives me enough to relate to the characters and want the heroine to win.

Ellie is the heroine in this story. Wanting to surprise her boyfriend Tom by visiting his laboratory at work for the very first time, she herself becomes surprised and hurt by an unexpected revelation that leaves her reeling. Refusing to leave the premises, unbeknownst to her, she chooses to sit on something that acts as a time machine for Tom's research. With a flick of a switch, the machine sends Ellie back in time to some age about 30,000 years ago with no hope of coming back to current time.

The strong heroine manages to get away from a wild creature that was not after her as she had presumed--it was escaping its predators--four very manly men in loincloths who later discover that she is the frill that adds to the kill.

As the book description forewarns, you will read about dubious consent, forced seduction, some M/M action, and a four-cavemen-with-one-modern-woman scene. By the end of the book, we come full circle and a delicious surprise awaits the reader, leaving me vouching for Ellie and womankind all the way! (I promise you I won't say anymore; otherwise, I'll spoil it for you.)

All this is to say I highly recommend this quick read. You'll see that Shoshanna is a master at keeping us "captive" in hot quick reads with strong characters. So sit tight and enjoy the action. :-)

I received a copy of this book from the author in exchange for an honest review

Very erotic - *spoilers*

By Brian D.

This book gave me the best orgasm of my life, really bringing my deepest, darkest fantasies to life in my imagination. The scene depicting being lifted off the ground by the nipple really got me going. With the cavemen being chemical-free and organic, I really enjoyed how this book highlights the sexiness of those who live a truly natural life.

There were a few holes in the story that I think added to the sensuality of the book in my opinion. The random verb-tense changes added to the feeling of truly being in a land that existed 30,000 years ago before education and written language. Also, wild boars did not exist in caveman times. Perhaps having the cavemen hunt deer or woolly mammoths would have been sexier. Also, I wonder if the cavemen were so enthralled with the modern woman because their cavemen women had not yet evolved to have a G-spot. The old baby part didn't really make sense.

In sum, I am very turned on right now. I am desperate to re-enact this erotic story in my real life. Perhaps I should post on craigslist and add for "female seeking cavemen". Or, if you have access to a time machine, please contact me.
