10 of 10 people found the following review helpful.

A view of families, and relationships in general

By G. A. Lapes

This work packs a lot of concepts in a very condensed form. Requires careful, slow reading to comprehend. Some very important theoretical constructs. Nagy was a significant, but under appreciated voice in the field.

13 of 13 people found the following review helpful.

Great book for understanding family dynamics

By Carole Trout

I read this book in the early 90's and continue to refer to it when I want to understand or explain to others why people interact with their family members in ways that clearly seem not to be in their own best interest. I recommend this book to anyone wanting to get a deeper understanding of family dynamics.
