Great content but poor editing...

By Gerald Grant

I'm currently taking a Psychology class and this is our assigned text book. The content of the book is great and I have a greater understanding of Psychology now. Unfortunately, the editing of the book is poor, especially the review sections at the end of each chapter. Bottom line: the answers in the back of the book are not always correct. If you're going to be tested on the material in this book, I strongly suggest that you study the content of the chapters and NOT the answers found in the back of the book.2 of 2 people found the following review helpful.

A perfect supplement to main text

By Carolyn Cisneros

I was lucky enough to have Dr. Melucci as my psychology professor at Santa Monica College a couple years ago. She's very knowledgeable and breaks everything down into understandable terms. I honestly enjoyed coming to her class because she always made it interesting. I would definitely recommend Psychology: The Easy Way to anyone taking an introductory psychology course.0 of 0 people found the following review helpful.

great book, great price

By Gabriel Isaac Monreal

the book is great condition, not late, the price is unbeatable, and a great addition to a home library, thanks!See all 11 customer reviews...
