Amazon.com Review

An Amazon Best Book of October 2015: Leigh Bardugo is a fascinating storyteller and in her latest book, Six of Crows, she's stepped up her game even more. At the heart of the novel is Kaz Brekka, a mysterious young man who has clawed his way to notoriety in a city fueled by corruption and greed. When Kaz is asked to perform an extremely dangerous heist in return for a staggering sum of money, he calls upon his most trusted compatriots to help. The story is told from multiple points of view and readers discover what led each character to Kaz in the first place, as well as his own shocking path. Six of Crows is a vivid, entertaining fantasy that boldly captures the imagination and leaves an impression well after the novel's cliff-hanger ending. -- Seira Wilson

From School Library Journal

Gr 7 Up—Bardugo has created a wildly imaginative story of six young people who have been commissioned to pull off the greatest heist of all time. They are to nab the creator of *jurda parem*, a highly addictive product that enhances the innate paranormal powers of the Grisha peoples, in the hopes of creating weapons of war that will upset the balance of power and destroy the economies of rival governments. Kaz, the hero of the story and mastermind of the plot, recruits five others to aid in his quest for revenge for the loss of his brother and the promise of vast wealth. Taking what could have been stock characters of young adult fiction—the loner, the rebel, the outcast, and the con artist, the author has fashioned fully fleshed out, dynamic protagonists who will engage and enchant readers. What a thrill it is to return to the world she created with her popular "Grisha Trilogy" (Holt). While the unresolved ending may frustrate some teens, the promise of a sequel will give them hope that this unsettling, captivating, magical journey will continue.—Jane Henriksen Baird, Anchorage Public Library, AK

Amazing book

By luke m.

This book was way too addictive. I finished it and the sequel within 3 days. I couldn't put it down.

Unlike many other companion series this series in my opinion was as good or even better than the original Grisha series. This book did an amazing job building off of what we already knew about Grishas and the world. But it also did a good job delving deeper into parts of the world that this Grisha series did not. This series main characters were mostly not grisha which was good because it showed the different skills they had and also showed us the perspective of grishas from the poorer people without powers.

I loved the introduction and idea of Ketterdam. As a city it was given to use blank and throughout the book we learned more and more about it and the true nature of it was revealed to us.

I like how in the book I learned to like the character and eventually understand each of their motives and slowly get their backgrounds through perfectly placed flash back all throughout the book. It kept the mystery of the character very well.

Each one of the characters frustrated me (in a good way) especially Kaz who was a very good and complex main character who was intriguing and someone I couldn't fully figure out until the end of the second book.

The different love interest in this book made the dynamic of the group of characters a pleasure to read and kept the book interesting the whole time.

As always Leigh Bardugo writing style and skill added on to this amazing book.

This book earned everyone on of these five stars.

I highly recommend it to anyone.

Usually I can read a book in like a day

By Cyra Rae Schaefer

Usually I can read a book in like a day, maybe two if time flies by. This book I think took me like 4 or 5 days to read! Not a bad thing! There's just so much going on in this book, it feels like you need to take a break to let it all sink in every now and then!

Kaz Brekker is basically a criminal mastermind. He was SO good at being bad that it almost felt unrealistic to me, but it was very entertaining! He is ambushed in a dark alley and given information on a near impossible heist that would make him, and anyone who would be dumb enough to help him, disgustingly rich. He goes out and recruits the rest of his six member crew and they prepare to set off to retrieve something valuable from the Ice Court in Fjerda.

This story is told in six points of view, which would usually be a problem for me. As a general rule, I hate multiple points of view. But this one was perfect for it, what with everyone off doing their own parts of this impossible heist, so you get to see what's going on all around. I loved seeing the different points of view in this one! I loved the flashbacks in Kaz, Nina, and Matthias's points of view! I loved learning about all of them!

I liked all of the characters in this book! But I think that my favorite characters were Nina and Matthias by far! The characters are all so different and have different strengths that are all so perfect for this heist. I loved it. Since there's so many characters, I don't want to go in depth about all of them, but they're all fantastic!

There is a bit of romance in this book! Everyone in the crew pretty much pairs off in this book. Nina and Matthias are my favorite pair! I loved their relationship and I found their history to be really interesting! I loved Nina so much.

I loved getting to revisit the Grisha world and seeing all the references to characters from the other series was so fun. I liked that we got to see more of Fjerda and Ketterdam in this one! There were things happening in this book from page one so it was never boring or really slow. The ending is kind of a cliffhanger, but not a horribly mean one. But it does leave you needing the next one!

I really can't think of anything about this book that I really didn't like. I can see why this book was so hyped up, it was excellent and I am can't wait for Crooked Kingdom!

Overall, I would highly recommend this book! If you loved the Grisha trilogy and haven't read this one yet, what are you waiting for?!

By NB

Leigh Bardugo's "Six of Crows" novel is absolutely fantastic! Kaz Brekker has officially become one of my favorite characters of all time. In order to keep it coherent, I'll outline my review.

The Good:

- The POV: Leigh makes the 3rd person limited point of view work in a way that I haven't seen in a while, and to be honest, renewed my faith in the style.
- The Setting: I can practically *feel* the chill, or the damp humidity in the air. The entire place comes alive, and I can't wait to explore the world further with Leigh's other works.
- The Characters: These characters really make the story shine, bringing to life a motley crew that I simultaneously would love to meet, and *really* don't want to. I have my favorites, and those who...aren't, but overall the characters were great.
- Camaraderie: The connection and relationships between all the characters really made this book for me. It was a bit slow in the beginning, but really picked up steam once the gang was all together, and I loved it.

The Not So Good:

- Unnecessary Tension: Perhaps "tension" is the wrong word here. More like...being a baby. Some of these characters just act like petulant children, which is fine once or twice. However, it quickly gets overplayed. And the "will they/won't they" aspect of the relationship between two characters, as well as their volatile connection (you know who you are) is spicy and wonderful, but, again, overplayed. Leigh took a great thing and kept pushing it in my face.

- The Ending: I love the ending. It's wonderful. It fits with the style. It's awful. The main character, Kaz, has his intelligence and cunning played up the whole book, and he doesn't disappoint...until the end. The betrayal you can smell from a mile away, Kaz thinks he's able to outsmart, and lo 'n behold, he cannot. Maybe he got lazy. Maybe he was tired (he was definitely tired). But it honestly felt like a cop-out by Leigh.

Overall, the book was great! If heists, magic, interesting characters, and bonds between individuals are your thing, get this book, and don't put it down until you've read every last page.
