Excellent for Beginners

By A Customer

Teach Yourself Turkish is one of the best language books I have ever used. Each lesson builds on the previous one, and presents useful situations that apply what is being learned in context. Vocabulary building

comes quickly, and grammar, syntax and verb conjugation are explained in terms very easy to digest. My only problem with the book was the authors' occasional inclusion of new grammatical elements without explaining them. Aside from this small flaw, the book is excellent and a must for anyone wanting to learn Turkish.

8 of 9 people found the following review helpful.

Fun and fast.

By DarnHeather

This book is so much more fun than any of the other textbooks that I have tried that I am acutally eager to study. The sessions go by fast, but I feel that I really have learned a lot. The only problem I have is with the pronunciation guide at the begining which was written for British-English speakers and was confusing for me an American-English speaker. Thankfully though I have my own Turkish tutor to help me with the prounciations.

Tapes do not come with the book

By D. P. Birkett

The text makes reference to an accompanying cassette but all that comes from Amazon is the book. I have sent a fax to the American distributor at 847-679 2494 and an e-mail to the British distributor orders@bookpoint.co.uk but so far no way to get the tape. The British publisher is Hodder and Stoughton Educational 338 Euston Road, London NW1 3BH The book seems pretty good to me but I haven't been to Turkey yet. It's a tough language.
