This is the first edition of the new IB Paper One topic--The Move to Global War, and is a well organized and helpful textbook. The main problem I have noticed is not in the content but in the sample questions. There are several typos and inconsistencies especially for the second and third question. I only bring this up to encourage teachers to buy the newer editions as they are released and to be aware of the inconsistencies as to not mislead your students. Otherwise the book provides a thorough history of the topic and offers several sources for students to build up their skills.
