Woken Furies: A Takeshi Kovacs Novel By Richard K. Morgan Exactly how an easy suggestion by reading can boost you to be an effective person? Reading *Woken Furies: A Takeshi Kovacs Novel* By Richard K. Morgan is a quite basic activity. But, exactly how can many individuals be so lazy to review? They will certainly choose to spend their downtime to chatting or hanging out. When in fact, reviewing *Woken Furies: A Takeshi Kovacs Novel* By Richard K. Morgan will provide you more probabilities to be successful finished with the hard works.

From Publishers Weekly

In Morgan's powerful third cyberpunk noir SF novel to feature Takeshi Kovacs, whose consciousness is transferred from one ultra-combat-ready body to another in the service of various unscrupulous powers, the interstellar mercenary returns home to Harlan's World, thoroughly pissed and dangerous. Despite his justified cynicism, he finds himself trying to protect a young woman who may house the soul of a martyred revolutionary from centuries earlier. He also must fight a hired killer who's a younger version of himself. To succeed, he has to sift through his past to see which allies and memories he can trust. Morgan has become even more nervy since winning the Philip K. Dick Award for his confident first novel, *Altered Carbon* (2003). This book develops a baroque, appallingly complicated setting, full of opportunities for revelation and betrayal. Both violence and sex are troweled on thickly but appropriately; they have significant consequences for these people who are trying—in circumstances even more desperate than our own—to discover who they really are and who they might have a chance to become.

From Booklist

Starred Review Following *Altered Carbon* (2003) and *Broken Angels* (2004), Morgan's anxiously awaited third Takeshi Kovacs novel makes a terrific addition to an award-winning series. This time Morgan takes a giant leap into the cyberpunk future that William Gibson began exploring 20 years ago. Unlike Gibson, however, Morgan combines the cyberpunk style with a fast-paced, first-person narrative that is as evocative of classic hard-boiled detective fiction as it is of cutting-edge science fiction. His protagonist, Kovacs, a futuristic version of a ronin ("for hire") samurai, is back on his home planet, Harlan's World. The ruling Harlan family awakens Kovacs from digital storage into a newly constructed body and launches him on a mission that weaves a dangerous course through labyrinthine politics and murderous hardware. But Kovacs also has his own agenda. Vengeance and a quest for a long-lost love continually put his loyalties into conflict with his powerful and ruthless new employers, in a future where death may or may not be forever. Highly recommended for followers of the series, cyberpunk devotees, and hard-boiled detective fans not averse to a little genre-bending. Elliott Swanson

Review

Praise for Richard K. Morgan

Market Forces

“Morgan is one of science fiction’s bright young lights, a crisp stylist who demonstrates equal facility with action scenes and angst.”

–The New York Times Book Review

“Forces is turbo-injected with moral ambiguity, Wag the Dog political scenarios, and action sequences fit for a Bruckheimer movie.”

–Entertainment Weekly

Altered Carbon

“Compelling . . . immensely entertaining . . . full of duplicitous characters, murky motives, and a detective who’s as tough as he looks.”

–The Philadelphia Inquirer

“Gritty and vivid . . . Looks as if we have another interstellar hero on our hands.”

–USA Today

Broken Angels

“Clearly the work of a gifted, ambitious writer.”

–The Washington Post Book World

“A superior, satisfying cyberpunk noir adventure.”

–Publishers Weekly

Morgan Certainly, it will be the best friend if you read this publication Woken Furies: A Takeshi Kovacs Novel By Richard K. Morgan until completed.

WOKEN FURIES: A TAKESHI KOVACS NOVEL BY RICHARD K. MORGAN PDF

Richard K. Morgan has received widespread praise for his astounding twenty-fifth-century novels featuring Takeshi Kovacs, and has established a growing legion of fans. Mixing classic noir sensibilities with a searing futuristic vision of an age when death is nearly meaningless, Morgan returns to his saga of betrayal, mystery, and revenge, as Takeshi Kovacs, in one fatal moment, joins forces with a mysterious woman who may have the power to shatter Harlan's World forever.

Once a gang member, then a marine, then a galaxy-hopping Envoy trained to wreak slaughter and suppression across the stars, a bleeding, wounded Kovacs was chilling out in a New Hokkaido bar when some so-called holy men descended on a slim beauty with tangled, hyperwired hair. An act of quixotic chivalry later and Kovacs was in deep: mixed up with a woman with two names, many powers, and one explosive history.

In a world where the real and virtual are one and the same and the dead can come back to life, the damsel in distress may be none other than the infamous Quellcris Falconer, the vaporized symbol of a freedom now gone from Harlan's World. Kovacs can deal with the madness of AI. He can do his part in a battle against biomachines gone wild, search for a three-centuries-old missing weapons system, and live with a blood feud with the yakuza, and even with the betrayal of people he once trusted. But when his relationship with "the" Falconer brings him an enemy specially designed to destroy him, he knows it's time to be afraid.

After all, the guy sent to kill him is himself: but younger, stronger, and straight out of hell.

Wild, provocative, and riveting, *Woken Furies* is a full-bore science fiction spectacular of the highest order—from one of the most original and spellbinding storytellers at work today.

Better than a Micky Nozawa experia flick

By John S. Ryan

I'd been waiting for quite a while to read this third entry in Richard K. Morgan's series of Takeshi Kovacs novels. It was worth the wait, and in some respects it may be the best of the series so far. Tak travels through some dark, dark territory here.

Don't be fooled (or put off) by the pace. Where *Altered Carbon* was a rapid series of body blows, *Woken Furies* is more like being dragged down very slowly by a very large weight. There's a lot going on here, but quite a bit of it is in the background and between the lines. If you don't get into Tak's head pretty early on, the novel may read like a travelogue.

Not that that's necessarily *bad*. Probably a lot of us were curious about Harlan's World, and we get to see quite a bit of it here. We also finally get to put faces (the faces of their current sleeves, anyway) with some familiar names from Tak's past. All of that will probably be interesting enough to entertain the casual reader.

But if that's all you get out of this novel, then you're missing the meat of it.

The surface-level plot opens with Tak on Harlan's World in a synthetic sleeve, trying to get back into his own body. He's also, as we gradually discover, on some sort of mission, the details of which we don't really learn until some 250 pages in. And not too far into the tale, we meet someone who just *might* turn out to be Quellcris Falconer . . . or maybe not. Furthermore, Tak is being pursued by a younger version of himself, decanted from a backup copy he didn't know existed. Things build toward a final revelation with implications far, far beyond Quellism and the local politics of Harlan's World.

The pace, though, is generally slow. Oh, things do happen (and people start dying horribly within the first twenty-odd pages), but a lot of the action is off-screen. We spend the bulk of the novel the way we spent most of *Star Trek: The Motion Picture*: Going Somewhere.

The really interesting stuff, and the real, behind-the-narrative content of the novel, is what happens to Tak. I'm not going to give you any more clues about this; I'm just going to warn you to listen with both ears as those titular furies awaken and the possibilities of redemption come and go. There's a lot of internal turmoil going on here, and Tak isn't necessarily going to tell you about it directly. Hell, despite his Envoy training, I'm not sure he's even fully aware of all of it himself.

Readers who keep wanting recycled versions of *Altered Carbon* will continue to be disappointed, as they were with *Broken Angels*; Morgan clearly isn't going to keep rewriting the same book for us. Now, me, I think that's a good thing.

Great series

By Eric

If you ever wanted a post-cyberpunk trans-humanist setting that would make you think, this is the one. This is real science fiction.

0 of 0 people found the following review helpful.

An entertaining read.

By Ron Ellison

Great book. Unfortunately the first book in the series, is far better. Read it anyway, "Altered Carbon" is a hard act to follow.
